

ANACOSTIA WATERSHED RESTORATION PARTNERSHIP MANAGEMENT COMMITTEE

Tuesday, September 25, 2018
10:00 a.m. – 12:45 p.m.
Kirby Training Center (1st floor)
Metropolitan Washington Council of Governments
777 N. Capitol St., NE
Washington, DC 20002

TENTATIVE AGENDA

- 10:00 A.M.** **1. CALL TO ORDER, INTRODUCTIONS, APPROVAL OF MINUTES**
Katherine Bennett, Montgomery County DEP (MCDEP)
- 10:10 A.M.** **2. ENHANCED NATIONAL HYDROGRAPHY DATASET (NHD) FOR POTENTIAL LOCAL APPLICATION**
Roger Barlow, United States Geological Survey (USGS)
The project encompasses 6 12-digit Hydrographic Units (HU) covering the District of Columbia. The Maryland Dept. of the Environment is also working on improving the stream network using lidar and orthoimagery source data in the Upper Rock Creek HU-12, and will be enhancing the upper Anacostia HU-12s in the near future. The enhanced National Hydrography Dataset (NHD) is a greatly improved stream network which includes a thinned network of DC Water storm-water pipes integrated with infalls/outfalls, culverts as connectors, and gaging stations as NHD "events". Surface-water streams are added using lidar source data and flow-accumulation routines. This will improve the existing NHD data for the District of Columbia from 1:24,000-scale to a scale more commensurate at the "local" level. In addition, the DOEE funded project is creating a 14-digit watershed delineation for the project using lidar 1-meter digital elevation models, and also 16-digit HU "catchments" in DC only.
- 10:35 A.M.** **3. USGS NON-TIDAL NETWORK MONITORING STATIONS - NORTHWEST BRANCH ANACOSTIA**
Joel Blomquist, USGS
USGS will summarize the latest results from the USGS non-tidal monitoring network focusing in the Anacostia Watershed network stations, where available. Highlights will include the progress in reducing loads from the various source sectors for the 2007 – 2016 period.
- 11:10 A.M.** **4. STATUS OF THE ANACOSTIA NON-TIDAL NETWORK MONITORING STATIONS**
Charles Walker, USGS
USGS will provide an operational update for the USGS Anacostia non-tidal

Reasonable accommodations are provided upon request, including alternative formats of meeting materials.
Visit www.mwcof.org/accommodations or call (202) 962-3300 or (202) 962-3213 (TDD).

monitoring network and future monitoring guidance at those stations to establish/continue trend load analyses for the major Anacostia non-tidal monitoring stations.

- 11:30 A.M. 5. ANACOSTIA TMDL REVISIONS**
Jillian Adair, Environmental Protection Agency (EPA)
 EPA, MDE, DOEE, and Tetrattech will provide an update on their collaborative effort to develop revised TMDLs in the Anacostia Watershed for a suite of Toxics including metals, organochlorine pesticides, and PAHs. The team will present the status of additional water quality monitoring, the modeling platform, and ongoing work to define TMDL endpoints. Additionally, EPA, MDE, and DOEE wish to inform attendees about the collaborative effort to develop revised TMDLs for trash in the Anacostia Watershed. EPA is currently seeking readily available data from the public that can be used to benefit the development of the trash TMDLs.
- 12:30 P.M. 6. MEMBER UPDATES**
1. Anacostia River Sediment Project
TBD
 2. Anacostia Watershed Community Advisory Community (AWCAC) Report
Marian Dombroski, AWCAC Chair
- 12:45 P.M. 7. ADJOURN AND LUNCH**

The next meeting is scheduled for Thursday November 29, 2018.

2018/2019 Meeting Schedule

Month	Steering Committee*	Management Committee*	AWCAC**
2018			
October			
November		29 (Thursday)	14 (Tuesday)
December	TBD		
2019			
TBD			

* Meetings held at MWCOG (777 North Capitol St, NE. Washington DC, 20002)

** Meetings will move around the watershed
